

Facilities Energy Efficiency Improvements

Save money and reduce energy use with key facilities improvements.
Find out what they are and strategies to fund them.

Tuesday, September 21st

8:30 – 11:30

Embassy Suites, Blue Ash

If you are considering upgrading your HVAC system, lighting, or other facilities components, or looking at solar solutions, this workshop will provide you with critical information on identifying facility improvements and how to fund them. Facilities topics to be included include heating, air conditioning, lighting, and automated control systems. Funding information will include grant and low interest loan sources for non-profits, governmental entities, and for-profit entities.

Presented by:

National Energy Control provides turnkey energy optimization design to a variety of organizations including commercial, industrial, Healthcare, and Educational institutions. Our clients appreciate our professional, consultative approach in helping them identify areas of inefficiency in their operations and ways of cutting energy costs and improving their working environment. While we're far from being the largest in our field, our approach, flexibility, expertise, and willingness to go the extra mile with our clients is what makes us unique.

advance4, LLC provides strategic development services to non-profit and governmental organizations. With the availability of stimulus and other funds for energy improvements, we have been able to take our track record of high performance into the for-profit sector and assist businesses, apartment complexes, and other entities with securing funds for their energy improvement needs.

Registration Fee: \$ 35.00. Breakfast and materials are included.
